Professional Summary

I am currently pursuing Bachelor of Technology in Information Technology from Techno International Newtown, located in Rajarhat, Kolkata.
I have completed my secondary as well as higher secondary from Mahavir Institute Of Education and Research, Kolkata.

I'm passionate about designing and have started implementing it by learning Front-end-Development. I love to communicate with people around and explore new things.

I believe that someday I can change the world by my creativity and make it a better place to live on.
